Button functions

1

⊕ Volume up

1) Short press to turn the volume up

2) Long press for 2 seconds to power on/off Moodbox
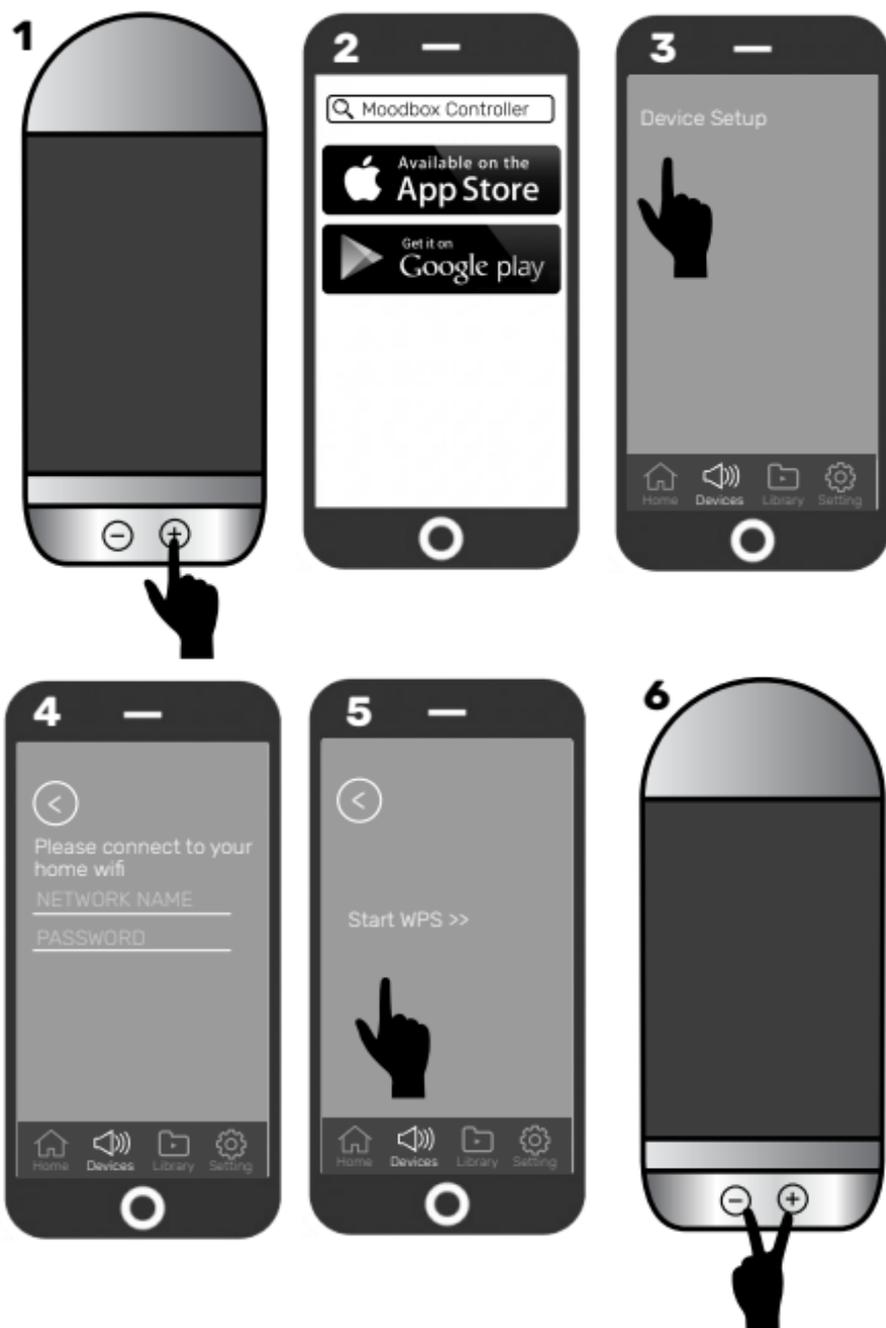

2

⊖ Volume down

1) Short press to turn the volume down

3

⊕ ⊖ Volume up & down

1) Short press both buttons and then speak to Moodbox (this button serves an alternative to saying the wake up words 'Okay Emi')

2) Long press both buttons together for 2 seconds for WiFi sharing (please follow instructions on the WiFi setup section of this manual)

WiFi setup

1) Long press ⊕ button on the device to power it on

2) Download Moodbox Controller App from iOS App Store or Google Play Store. Open the app and sign up for a Moodbox account with your email to enter the app

3) Go to the Devices page on the app and then click "Device Setup" on the top left corner

4) Input home WiFi credentials which has to be the **same** network as the one your smartphone is connecting to

5) Click "Start WPS" on the app

6) Now long press ⊕ ⊖ buttons on the device at the same time. Hold the buttons until you hear "Searching for WiFi"

Speaking to ⊕ Moodbox

To speak to Moodbox please say "Okay Emi", wait for a ding sound, and then tell Moodbox what you want. You will hear a second ding sound when Moodbox finishes listening to you.

Where to put ⦾ Moodbox

Kitchen

8 inches

Living Room

Entry

Closet

8 inches

Lin.

W/D

Bedroom

Closet

Bath

Deck

Place ⦾ Moodbox at least 8 inches from the wall for the best performance

Tips:

Moodbox comes with five light scenes which are baby blush (pink), lavender mist (purple), sea breeze (aqua), sunset glow (orange) and zen (warm). You can change the light scene using voice commands or using the controller app

Moodbox supports Bluetooth 4.0. To play from your own music library, turn on Bluetooth on your smartphone and pair with Moodbox. When Bluetooth mode is on, you cannot talk to Moodbox. Once you unpair, Moodbox will go back to the default Wi-Fi mode and all voice commands will be restored

5Ghz Wi-Fi networks are not currently supported. Please connect your Moodbox to 2.4Ghz Wi-Fi networks

For more information and examples, please go to Help on the Moodbox Controller App
